

## a Grouping strategies

### Exhaustive hypothesis testing

Maree et al. 2024 ·  $(A!)^C$  per frame

### Greedy per-view assignment

LUC3D · C Hungarian solves,  $O(C \cdot A^3)$

## b Association cost

### Cost per (target, detection) pair

## c Hypotheses per frame

## d Grouping accuracy, head to head

## e 3D-term ablation

## f Time per frame
