

a Protocol

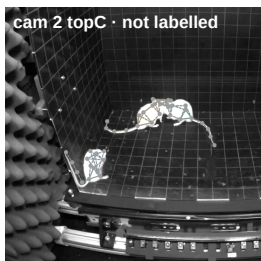

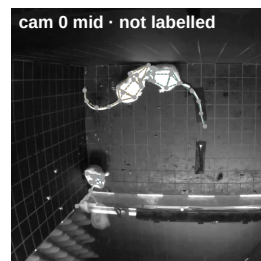

1. Label 2 anchor views

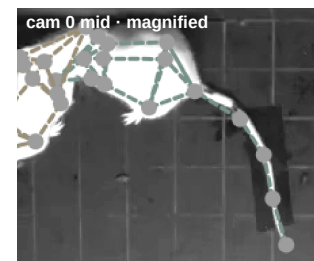

2. Triangulate

3. Reprojections appear

4. Accept or nudge

2-anchor solve, this frame

anchor views 1.4–4.5 px

the other 6 2.5–24.6 px

dotted = reprojected

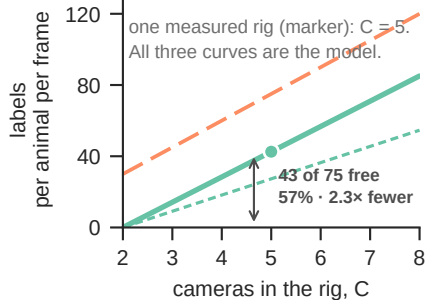

solid = detected

b Labels free by reprojection

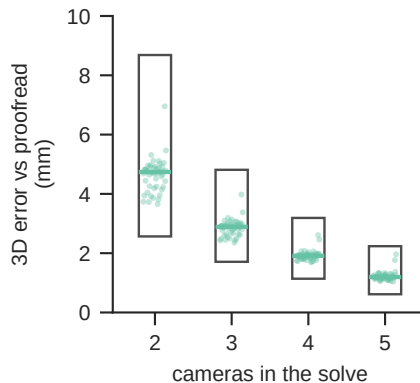

labels needed, $C \times N$ (assumed)

free by reprojection, $\tau = 10$ px

free by reprojection, $\tau = 5$ px

c Error vs cameras in the solve

d Anchor-pair geometry
